

Onboarding Bot — HR Playbook

devx Ai Labs | Last updated: April 2026

How It Works (Simple Overview)

HR fills Slack List

|

▼

Status --> "Confirmed"

|

▼

Bot syncs data automatically

|

▼

Bot handles everything from here:

- Validates all fields are complete
- Sends emails **at the right time**
- Notifies buddy, POD leader, HR
- Posts welcome messages
- Tracks checklist **progress**

You only need to do 2 things:

1. Fill all fields in the Slack List
2. Set Status to "**Confirmed**" when ready

The bot does the rest.

What HR Needs to Fill in the Slack List

Required Fields (must be filled BEFORE confirming)

Field	Example	Why
Name	Rahul Sharma	Used in all emails and messages
Work Email	rahul.sharma@devxlabs.ai	Handbook email sent here + login credentials shown in welcome email
Personal Email	rahul@gmail.com	Welcome email sent here
Role	SDE / Designer / QA	Mentioned in all communications
Joining Date	2026-05-15	Drives the entire timeline
POD Name	Apex / Nova	Mentioned in emails and Slack
POD Lead	@Smit Patel (People picker)	Gets DM + email notification
Buddy	@Pritesh (People picker)	Gets DM + email notification
Temp Password	Welcome@123	Sent in welcome email to joinee

Mode Offline / Remote / Hybrid Shown in welcome email

Optional Fields

Field	Notes
Job Type	fulltime / intern
Resume	Google Drive link
Location	Office location
Phone	Joiner's phone number
Department	Team / department name

Timeline — What Happens and When

D-7 (7 days before joining)

Bot checks: Are all required fields filled?

All fields filled?

|

|-- YES --> HR gets DM:

|

"All set -- Rahul joins in 7 days.

|

 Emails will be sent on D-1."

|

|-- NO --> HR gets DM:

"Rahul joins in 7 days but missing:

- Buddy

- Temp Password

Please update the Slack List."

Who gets notified: HR only (via Slack DM)

D-6 to D-2 (daily checks)

If fields are still missing, HR gets a **daily reminder** until fixed.

Once HR updates the Slack List and toggles Status back to "Confirmed", the bot picks up the changes automatically.

Who gets notified: HR only

D-3 (3 days before joining)

HR gets a **progress reminder**:

"Rahul joins in 3 days.

Emails: Will be sent on D-1.

All fields ready."

Who gets notified: HR only

D-1 (1 day before joining) — THE BIG DAY

4 emails are sent automatically:

Email 1: Welcome + Login Credentials

To: Joinee's PERSONAL email

Contains: Office address, reporting time, joining date with day, buddy name, POD info, work email, temp password, work mode, payroll link, Slack link, document upload form, onboarding lunch note (uses actual joining day)

Email 2: Employee Handbook + Policies (8 documents)

To: Joinee's WORK email

Contains: Asset Policy, Referral Policy, Separation Policy, Leave Policy, POSH Policy, Reimbursement Process, WFH Policy, Plum Health Insurance Handbook, Acknowledgment form link

Email 3: Buddy Notification

To: Buddy's work email

Contains: Joinee details, buddy responsibilities checklist

Email 4: POD Leader Notification

To: POD Leader's work email

Contains: Joinee details, request for handshake meeting

Slack messages sent automatically:

#hr-onboarding channel:

- New Joiner announcement **with all** details
- Interactive checklist (35 items) as **thread** reply

Buddy gets Slack DM:

- "You've been assigned as joining buddy for Rahul"
- Full responsibilities **list**

POD Leader gets Slack DM:

- "New POD member -- Rahul joining as SDE in Apex"
- "Let me know a suitable time for a handshake"

HR gets Slack DM:

- "All 4 onboarding emails sent for Rahul"
- **Link** to the checklist **thread**

Who gets notified:

Person	Email	Slack DM
Joinee (personal email)	Welcome + credentials --	
Joinee (work email)	Handbook + policies --	

Buddy	Buddy assignment	Buddy assignment + responsibilities
POD Leader	New POD member	New POD member + handshake request
HR (Pooja)	--	Confirmation + checklist link

D-0 (Joining Day)

Slack messages sent automatically:

#general channel:

- "Welcome Rahul joining as SDE in Apex POD! Say hi!"

Joiner gets Slack DM (**on** work account):

- Welcome message **with** buddy info, POD info
- Links **to** policies, forms, payroll

#hr-onboarding **thread**:

- "Rahul has joined today!" (green indicator)

HR gets Slack DM:

- "Rahul has joined today!"
- Please update status to Joined in Slack List.

Who gets notified:

Person	Slack Message
Everyone in #general	Welcome post
Joiner	Welcome DM with all links
HR	"Mark as Joined" reminder

D+2 (2 days after joining)

If HR hasn't updated the Slack List status to "**Joined**", the bot sends a reminder:

"Rahul joined 2 days ago. Status is still Confirmed.
Please update to Joined."

Who gets notified: HR only

The Onboarding Checklist (35 items)

After D-1, an **interactive checklist** appears in the #hr-onboarding thread. HR can click checkboxes directly in Slack.

Pre-Joining (D-1) — 10 items

When HR checks certain items, the joinee gets a Slack DM automatically:

- Workstation allocated --> Joinee gets "Your workstation has been allocated"
 - Welcome kit given --> Joinee gets "Your welcome kit is ready!"
 - 2FA set up --> Joinee gets "2FA has been set up on your work email"
 - And 9 more items that notify the joinee
-

Slack Commands (Use Anytime)

Command	What it does
/checklist Rahul Sharma	Shows checklist with progress bar and done/pending items
/onboard Rahul Sharma	Shows full onboarding status overview
/upcoming	Shows all joiners in the next 7 days with readiness %

POD Leader Handshake Flow

HR does not need to relay messages — the bot handles it.

What to Do When Things Change

Joining date changes

1. Update the date in the Slack List
2. Toggle Status (change away from Confirmed, then back to Confirmed)
3. Bot syncs the new date
4. New emails will be sent on D-1 of the **new** date (old emails are not re-sent)

Joiner gets rejected / cancelled

1. Change Status to "**Rejected**" or "**Cancelled**" in the Slack List
2. Bot ignores non-Confirmed entries — no emails, no messages

Missing buddy or POD leader after confirming

1. Fill in the missing field in the Slack List
2. Toggle Status to re-sync
3. Bot picks up the update and stops alerting about missing fields

Someone joins but was never in the system

Contact the dev team to trigger onboarding manually.
